

# BICYCLE REGISTRATION

- Over 23 bicycles were reported stolen in 2014.
- 25% of these bicycles were recovered and returned to their owner. Why, because the owner knew the serial number or the bicycle was registered with the 502d Security Forces Squadron.
- You can help the Police help you by registering your bicycles.
- You do not have to bring your bicycles; simply have the information available at time of registration. See attached form.
