

Dear Residents,

We have noticed that several of our residents and/or their guest are parking on the grass, and empty fields within the housing areas. Please be aware that parking on the grass in the housing areas is strictly prohibited at any time.

Please park in your designated parking space in front of, or behind your home. Parking on the grass even for just a short period of time, can causes damage. Chemicals that may leak from your vehicle like air conditioning refrigerant, and motor oil can have a massive effect on the grass. Please do not drive on lawns because underground pipes and cables could be broken.

Failure to adhere to this policy will result with you being in violation of your lease agreement, and a lease violation being issued, up to being responsible for the cost to repair/replace damage property.

In addition please note that the Community Center parking lots are solely for the use of visiting residents at the Housing office during business hours, or to be used during events held at the Community Center. Vehicles that are found to be left overnight or used for additional parking will be towed at owner's expense.

We appreciate your cooperation, now and in the future. Please feel free to contact your local Community Center if you have any questions.

Thank You
